列車簡介 Train information

港鐵迪士尼綫列車，由市區綫 M 車改裝而成，現有三個列車編組，服務迪士尼綫超過 20 年，多年來接載無數乘客來往欣奧至迪士尼站。車身及車廂內籠加入迪士尼設計元素，配以獨有的絲絨沙發座椅，為乘客提供舒適之旅程。港鐵迪士尼綫列車 (M 車) 亦為全球少數，特別為迪士尼樂園作永久性外觀改造的重鐵車型。

The MTR Disneyland Line Train is converted from the urban line M-train and has been in service for over 20 years with three train sets. It has transported countless passengers between Sunny Bay and Disneyland Station over the years.

The train exterior and compartment design incorporates Disney design elements, featuring unique velvet sofa seating to provide a comfortable journey for passengers. The M-train of the MTR Disneyland Line is also one of the few heavy rail models in the world that have undergone a permanent aesthetic transformation specifically for Disneyland.
